

There's no question about it. A cranked British stack is, was, and always will be the sound of rock. From the moment in the 1960s when these amps were created to keep up with the likes of Pete Townshend, Jimi Hendrix, and Eric Clapton, a revolution in thick-creamy overdrive was born. Since that time, there have been a string of British amps so iconic that they continue to rule stages around the world. From the Bluesbreakers album to Malmsteen's high-flying precision, the company that invented the amp stack is still synonymous with everything hard rock and metal.

In 1981 hard rock and heavy metal had turned a corner. Gone were the loose, fuzzy tones that characterized the genre's infancy. Players were demanding more distortion, tighter performance, and the ability to control it all with a master volume. A certain legendary British amp company responded with one of the most important guitar amplifier heads of all time, affectionately known as the 800. Rock players of all stripes instantly adopted this new machine, writing and performing heavier and faster music than was ever possible before. In fact, for much of the '80s, you were almost guaranteed to find an 800 backing up your favorite rock guitarist. Their aggressive highs and prominent mids made - and continue to make - them the perfect foil for Zakk Wylde's chart-topping work with Ozzy and the dark intensity of Slayer's Kerry King. If you like your rock on the harder side, you definitely know the powerful sound of the monumental 800.

If you're on the hunt to add that original amp's characteristic bite to your Synergy rig, the 800 preamp module is where you'll find it. We went to great lengths to ensure this module represents that amplifier's tone in great detail. Dave Friedman of Friedman Amplification - who has worked on countless 800s, including personal amps of many guitar heroes - designed the module around his extensive knowledge of what makes the great ones truly special. He then hot rodded the 800 module with a higher-gain channel that takes your tone into even thicker harmonic territory. And for even more cut, both channels of this 12AX7-driven preamp feature a bright switch, ensuring your every note slices right through the mix.

The Synergy 800 features two channels each with gain and volume knobs and a bright switch. Both channels share a three band EQ.

CATHODE SELECT SWITCH:

This three position switch allows you to configure the input tube bass response to match the original circuit of the selected module. This will affect the feel and tightness. Each amp designer has a specific combination of components that makes up their input tube circuit. We have selected the three most popular combinations which you can access with this switch. For example, Friedman modules use position 2. The USA voiced modules typically use setting 1. The Soldano SLO uses position 3. Of course, you can experiment and try any of the positions to see what you prefer. The modules will come preset to the designers preferred setting which for the 800 module is position 2 (2.7K resistor and .68uF capacitor).

SYNERGY LIMITED THREE YEAR WARRANTY

Thank you for choosing SYNERGY. We take great pride in an extremely thorough testing procedure which is implemented on each product prior to shipment. In the unlikely event that you have a problem with your module, please refer to warranty below. SYNERGY stands behind our products like no other and we're here to help you!

This tube warranty is in lieu of all other expressed warranties. If tubes fail within the 90 day warranty period your sole remedy shall be replacement of tubes as provided below.

RETURN PROCEDURES: In the unlikely event that a defect occurs please email support@SynergyAmps.com. A member of our staff will email you a response in a timely manner. Please include your phone number in case our customer service department needs to reach you. In most cases we can help you diagnose the problem over the phone. If a product must be sent to us, please follow the procedure outlined below.

- Defective products must be shipped, together with proof of purchase, freight pre-paid and insured to the Authorized SYNERGY Service Center or directly to SYNERGY.
- If a product must be returned to SYNERGY for warranty replacement/repair, a Return Authorization Number must be obtained from our Customer Service Department prior to shipping the product.
- Please contact SYNERGY Customer Service Department for the Authorized SYNERGY Service Center nearest you.
- Products must be shipped in their original packaging or its equivalent; in any case, the risk of loss or damage in transit is to be borne by the purchaser.
- Please send to: SYNERGY - 3383 Gage Ave., Huntington Park, CA 90255
- The Return Authorization Number must appear in large print directly below the shipping address.
- Always include a brief description of the defect, along with your correct return address and telephone number.
- When emailing to inquire about a returned product, always refer to the Return Authorization Number.

If SYNERGY determines that the unit was defective in materials or workmanship at any time during the warranty period, SYNERGY has the option of repairing or replacing the product at no additional charge, except as set forth below.

- All replaced parts become a property of SYNERGY. Products replaced or repaired under this warranty will be returned via ground shipping within the United States or Canada - freight prepaid.
- SYNERGY is not responsible for costs associated with expedited shipping, either to SYNERGY or the return of the product to the customer.

All warranty repairs outside the United States must be directed to the dealer or distributor from which you purchased the product.

INCIDENTAL OR CONSEQUENTIAL DAMAGE: In no event will SYNERGY be liable for any incidental or consequential damages arising out of the use or inability to use of any SYNERGY product, even if a SYNERGY dealer has been advised of the possibility of such damages, or any other claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

FOR YOUR PROTECTION: Please complete the included warranty card within (10) ten days of the date of purchase so that we may contact you directly in the event a safety notification issued in accordance with the 1972 Consumer Product Safety Act.

CUSTOMER SUPPORT: Our dedicated and friendly staff is ready to help you with any warranty or product questions you may have. Please email us at Support@SynergyAmps.com. Thank you again for choosing SYNERGY.
